IDMA 2013 – MILLING CERTIFICATION TRAINING PROGRAM

Within the scope of IDMA 2013 – Fifth International Flour, Semolina, Rice, Corn, Bulghur, Feed Milling Machinery & Pulse, Pasta, Biscuit Technologies Exhibition – that will be held in Istanbul Exhibition Center between the dates of April 04-07, 2013, Parantez Fair Organization will organize a 12 hours long **"Milling Certification Training Program".** The details of this training program are as follows:

GENERAL INFORMATION ABOUT THE PROGRAM:

Organizer: Parantez Fair Organization

Date: April 05-06-07, 2013

Location: Istanbul Exhibition Center, Seminar Room / IDMA 2013 Fair ground

Training Language: Turkish – English (Simultaneous Translation)

Training Fee: Free

Participation and Certification Conditions: Participants should be actively working in a flour plant (mill) or in milling technologies manufacturing firm, and they should be able to prove that with documents.
For participants to become entitled to the certificate, they should attend all classes and the "flour plant trip" that will be organized in the last day of the training program.

Number of Participants: Limited number of participants will be accepted to the program and the participants will be determined based on registration order.

Registration: Those, who want to attend the training, shall make their registrations from the **"Online Registration"** section under the title **"MILLING TRAINING PROGRAM"** in the IDMA website, and send their flight information, hotel reservation and document proving that they are working in a flour factory or a milling technologies manufacturing firm to Parantez Fair Organization via e-mail or fax. The participants, who don't send these documents even though they made their online registration, will not be registered to the training.

THE MAIN TOPICS IN THE TRAINING PROGRAM:

1. Supply of Raw Materials in Milling
2. Mill Technology and Milling
3. Flour Quality, Quality Control and Flour Additives
4. Storage and Logistics of Wheat and Flour
5. Flour Plant Investment – Investment Feasibility and Management

Following the 12 hours long training program, the participants will receive a booklet containing the subjects taught by the instructors throughout those 12 hours.
