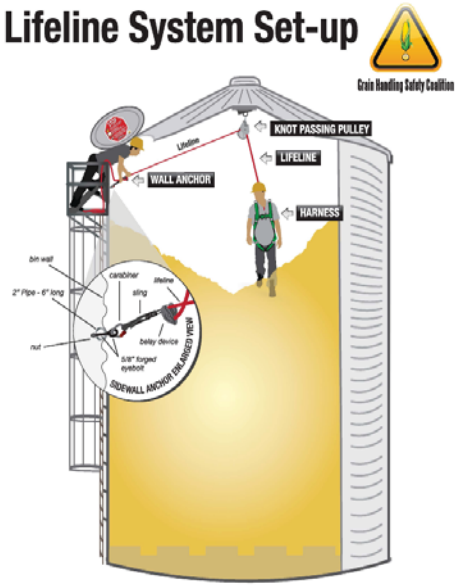
Safety for the Commercial Grain Handling Industry



Who should take this class?
This course is designed for commercial grain handling, feed mill and ethanol plant facility owners, operators and employees.

Join us for an informative and interactive training seminar focusing on the key safety challenges facing commercial agricultural industry with an emphasis on grain handling facilities. Sponsored by and presented as a collaborative effort of MIOSHA, Grain Entrapment Prevention Specialists and the Safety Specialists from Great Lakes Safety Training Center, this event is designed to provide attendees with the key information to be used to maintain compliance and help prevent employee injuries, grain entrapments and fatalities. Attendees will also learn how to effectively use grain entrapment prevention systems during bin entry.

What will you learn in this training?
•Clarifying "Who is agriculture?"
•Who's exempt from OSHA/MIOSHA
•Safety plan requirements
•Current statistics on grain entrapments
•Incident rates for injuries and deaths in agriculture
•Agriculture outreach efforts with MIOSHA
•General Industry Standard Part 77: Grain Handling facilities
•General Industry Safety Standard Part 90: Permit Required Confined Space
•Occupational Health Standard Part 490: Permit Required Confined Space
•Define and demonstrate fall arrest, restraint and work positioning systems
•Confined space entry and rescue focusing on engulfment and special needs within the agricultural industry
•Hands on exercises with body harnesses, anchorages & lifelines
•Powerful classroom and hands on demonstrations to help you better understand the risks and how to mitigate those risks
•How to create anchor points in and around grain bins and use lifelines effectively
